

We want to express to you how much K-Love Radio, 106.7 FM, means to us. It's so refreshing to have a radio station on that won't bombard our family with vulgar, off-color comments from DJ's, or that plays commercials dealing with topics that young children shouldn't hear, and that never has music that requires parental advisement. Listening to K-Love gives us a positive feeling in everything we deal with; in turn, that positive outlook is extended to everyone we come in contact with in the course of our day. We know of many other families who also listen to K-Love for the very same reasons. Please don't make any decisions that would remove this station from our airwaves. The staff, music and positive message that's broadcast is crucial to all families: it reflects hope and reassurance in these turbulent times that we live in. Thank you for considering our opinion.
